EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Callistein on September 26, 2005.

The application has been amended as follows:

In claim 23, after "starch" and before the ".",—as compared to an untransformed plant—was inserted.

The above amendment was made to correct a potential lack of comparative basis under 35 USC 112, second paragraph.

REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL

2. Since the application is otherwise in condition for allowance except for the needed deposit, and since the Office has received written assurance that an acceptable deposit in accordance with 37 CFR 1.801-1.809 will be made on or before payment of the issue fee, the Office is authorized to mail Applicant a Notice of Allowance and Issue Fee Due together with a requirement that the needed deposit be made within **THREE (3) MONTHS** of the mail date of this letter (see 37 CFR § 1.809(c)).

Under 37 CFR 1.809(c)-(d) an applicant is required to make a deposit of seed within three months after the mailing date of the Notice Of Allowance and Issue Fee Due. The time period for making a biological deposit, and an amendment to add the

depository information to the specification and claims, is no longer extendable. See 37 CFR 1.136(c) and 1.809(c), revised in Changes to the Time Period for Making any Necessary Deposit of Biological Material, 66 Fed. Reg. 21090 (April 27, 2001), 1246 Off. Gaz. Pat. Office 104 (May 22, 2001), effective for Notices of Allowability mailed on or after May 29, 2001. Amendments are no longer permitted to be filed after the payment of the issue fee. See 37 CFR 1.312, revised in Changes to Application Examination and Provisional Application Practice, 65 Fed. Reg. 14865, 14869 and 14873 (March 20, 2000), 1233 Off. Gaz. Pat. Office 47, 50 and 54 (April 11, 2000), effective on May 29, 2000. Failure to make the needed deposit of seeds will result in **ABANDONMENT** of the application for failure to prosecute. The deposit statement in the specification and all claims that refer to the instant seeds by name must be amended to include the deposit accession numbers. These amendments should be submitted before the payment of the issue fee as an Amendment After Allowance under 37 CFR 1.312. The statement of deposit in the specification shall contain:

- (1) The accession number for the deposit(s);
- (2) The date of the deposit(s);
- (3) A description of the deposited biological material sufficient to specifically identify and to permit examination; and
- (4) The name and address of the depository. (See 37 CFR 1.809(d)).

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: Applicant has developed an inbred corn line which will be properly deposited under 37 CFR 1.801-1.809. Numerous morphological and physiological characteristics of Applicant's corn line are taught in the Variety Description Information of the specification. U.S. Patent No. 6838601 teaches a corn line which shares some morphological and physiological characteristics with Applicant's corn line, such as leaf, anther, glume, silk, fresh and dry husk, cob and hard endosperm color. However, the prior art does not teach or fairly suggest any maize lines that have the combination of traits shown in the instant Variety Description Information. Regarding claims which recite "a part thereof": when the claimed part of the plant is a seed, it is interpreted to mean the seed is that which produces the claimed plant.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

(EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet.

The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
